

## UNIVERSITY OF PENNSYLVANIA RESEARCH SUBJECT ONLINE CONSENT FORM

We are conducting a research study to investigate various aspects of human cognition.

If you agree to participate, you may be asked to view images or read words, and then respond to questions or make decisions based on what you're shown. The study should take no more than one hour.

Your participation in this study does not involve any risk to you beyond that of everyday life. It's possible you'll be shown images that are surprising or mildly unpleasant.

You are not likely to have any direct benefit from being in this research study. Taking part in this study may help researchers to better understand processes that underlie human cognition.

You will be paid for your participation. You may choose either to receive a guaranteed \$10 payment or to be entered into a lottery to receive \$50. Lottery entrants will have an approximately 1 in 5 chance of being selected to receive payment. Recipients will be selected randomly. Participation in this study will involve no cost to you.

### **Confidentiality**

Your response data will not be associated with any personally identifying information, and will be recorded to a secure server.

The results of the research study may be disclosed to other researchers, either directly or via reporting in publications, presentations, or open data repositories. When sharing study results, neither your name nor any other personal information will be disclosed. Your participation in this research study is completely voluntary. You can withdraw at any time by closing the browser window.

If you have any questions about this study you may contact the Principal Investigator, listed below. Questions about your rights as a research subject may be directed to the Institutional Review Board (IRB) Office of the University of Pennsylvania at 215.573.2540 or [burgess4@upenn.edu](mailto:burgess4@upenn.edu).

If you want a copy of this consent for your records, you can print it from the screen. If you would like documentation linking you to this research study, please email your request to the Principal Investigator.

If you wish to participate, please select the Accept button on the study website; otherwise, you can decline by closing your browser window.
